The Story:

Demi & I just did not seem to click. She was wearing jeans when she opened the door and spent 10 mins ranting about someone who had annoyed her on the phone,having a wee & putting stockings on. She did not appear to click with me either and found me coming too quick and a bit large for her. Her massage oil is highly perfumed, not a good idea for her clients, a shower is available afterwards, a very disappointing visit & ?60 wasted.

Service Provider's Rebuttal

Demi writes, "The report written isn't true at all. Firstly i do not wear jeans for work, i had been downstairs to move my car from the main road onto the side road near the entrance to my apartment, i use it as a land mark you see, as to why i was still dressed when the client arrived. I then received a phonecall from the decorators at my home saying i had run out of paint and needed some more. I had a friend go to B&Q to fetch some more and it was out of stock. Yes it was a bit stressful but i wasnt ranting on at all. He heard the conversation and asked what was wrong. What really upset the situation was the fact he wanted OWO which i don't do and he exspected it. He even went on about can't i make him an exseption. I still refused that's when it all went pear shaped with his mood. As for the oil he smelt it first to see if it was too perfumey and he said it was okay to proceed with, i even stated he could shower after. I tried my best to make the man happy but nothing was good enough for this man"
