The Premises:

From looking at the website I had expected a temple-like experience with candles, incense, dancing sirens (ok, maybe not the sirens but you get the drift), but what I got was a pokey flat above a sandwich shop

The Lady:

Attractive, bubbly and slightly nutty Swedish girl

The Story:

Not at all what I expected. Requested nuru massage as I have seen on youporn but it was clear that this was Sandra's first time as well as mine. It was a comical, not erotic, experience, saved only by Sandra's quirky personality. Had the usual mobile calls in the middle and even a delivery. I have been to a proper tantric temple in the US and it is a wonderful experience to be kept at the edge for a prolonged period by a goddess in control. If one exists in London I would be glad to hear of it (perhaps Melissa of this agency is the one - at least one reviewer seems to suggest). I feel a bit bad "not recommending" as my sense is that Sandra could be excellent if she got her act together in a proper environment and had a bit of training in the tantric arts. She is certainly one of the more engaging personalities I have met in this game and TT should stick with her.
