The Lady:

She is mind-blowing. Other reviews have said this. - but her photographs on her website are great and yet they don't do her any justice. She is beautiful and has that really sexy intoxicating look and her body looks great with just the perfect amount of delicious curves. (Just writing this and remembering her again has me going weak at the knees. Can't wait for next time)

The Story:

She opens the door and requests you to take off shoes and then to the room. She offers the use of a shower but I had showered in preparation.. so did not take that.

The massage is wonderful. She knows her stuff and it is relaxing - and the massage below the back is other-worldly. She uses dollops of warm oil and then does these teasing swipes which will make you shiver. She is great on the turnaround too. And for those that are interested - she has some beautiful feet and delicious looking toes too.. great view overall as you are face down and she works on the shoulders giving you a breather between the teasing swipes on the back and the crescendo up front.

I would definitely recommend.
