The Story:

I'd seen Aries on one of her previous London visits and once I was aware she returning, then I just had to as well.

Aries has the kind of look and demeanour that I find such a turn on, which enhanced what we got up to during the meeting so much more. During our first meeting Aries delivered everything I'd wanted with the right levels of sensuality and then gusto in turn and thus I was very pleased to discover my expectations were met once again on this occasion. Her kissing is divine, and sex and A levels fantastic.

Also very friendly and easy to talk to and have a good laugh with. I think she visits here every few months or so - but I fully recommend catching her while you can.
