The Premises:

Not far from Fulham Broadway, an end terrace flat, no need to walk past any other doors or windows. Bit of a strange setup though, there appears to be 2 girls working from this flat and I drew the short straw and got to do the deed in the lounge on a pull out bed. At least she removed the cat first.

The Lady:

Bambi is from Hungary, tall and slender with dark hair and smallish boobs. Her skin is very soft and nice to touch. I would say she is no more than 20 years old and quite cute.

The Story:

I think Bambi must be new to this, as she came across as a bit shy, which for me is a good thing. After a short bout of kissing Bambi gave me covered oral, afterwards she rode me gently and then we swapped around to finish in missionary.

This was a bit of a strange meeting, the TV was on for the entire half hour, playing some old black and white war film, whilst we did it on the pull out bed. It reminded me of being a teenager again.

When I came to leave, it appeared that her friend had also finished seeing a client. I was just about to leave the room when I stopped out of courtesy as I heard the other guy at the front door saying his goodbyes. Experienced working girls always check the coast is clear.

It's not often you get to see other punters, I followed this guy up the street as we both made our way to the tube station and am glad to say that we're not all bald middle aged men.

If you're looking for a fresh, young, un-jaded working girl who is still a bit green then Bambi is the girl for you.
