The Story:

Met at the door by Cassie after being given directions by phone and text.

Cassie is an extremely intelligent Lady. Great conversationalist, (although her somewhat whinny voice did grind on me a little), and was made to feel very welcome and soon felt like I had known her for years.

After a drink and a long conversation we went into the bedroom for some action.

This is where things began to go downhill quite steeply for me.

When Cassie undressed I found that she really was a larger than expected woman.

I love a woman's breasts, no matter what the size, and I was really looking forward to seeing Cassie's large naturals but what a letdown.

My eyes were drawn to the excess layers of skin on Cassie's stomach which rendered her breasts out of bounds. The stomach skin flopped its way southwards and was almost covering her honeypot.

Sex was o.k. but nothing special. Cassie has been at this game long enough to realise that most guys love long, loud moans of supposed pleasure. Sadly I realised that Cassie was only acting. Over-acting if I am being truthful.

I tried doggie but the excess stomach skin rubbing against the bed was again very offputting.

I am sorry to say that although Cassie is a really lovely person and, despite being great company, I will not be making a return visit.
