The Premises:

My favourite haunt of late so clean bedroom in modern apartment with en suite shower room.

The Lady:

5' maybe. Slim. Oriental. Not quite sure where she hails from as her English was limited. Long black hair. Lovely legs. Cute little bum.

The Story:

Having shaved and showered I asked her to lie face down on the bed and gently massaged her back and legs. Appreciative moans ensued - especially when I sucked her toes. I have found Oriental girls really seem to like that. She has such a cute little bum, as mentioned, that I couldn't resist rimming her for a while. Then I asked her to turn over and move down the bed and I spent 15-20 minutes licking her beautiful, fragrant, pink pussy. She seemed to gain some tiny pleasure from this. Well, as she was moaning, massaging her boobs and grinding her pussy into my face, that was the impression I got... After what seemed to be her third orgasm I stopped as it looked as if I could have gone on all night! She lay there, arms spread out and eyes closed. After a while I got up and she straight away asked me to lie down. Did I want O? Hmmmm. Yes! Without? Yes. CIM? Oh, go on then! An extra ?30 was requested which was OK with me. I have to say that the oral was a tad too vigorous really so I ended up asking her to kneel down on the floor whilst I gave 'manual assistance'. She is a very cute girl though!
