The Story:

1st time Soho, not disappointed in final service, just what others had posted about what she offers. 99928 is a pack of lies according to Sandy, no licking of your nether regions and also no OWO.

Regardless, I opted for a quickie, so 15 mins for covered oral, full tea-bagging which carried on while I finished with a little KY. I shot out everywhere, all over the bed and my chest - pretty intense. But then, if you had a view of this gorgeous girl in between your legs licking away from mirror and (high) wall mirrors - what would you do?

Won't go again, as rimming is my preference, but def. recommended for sex and oral. Any ball-licking enthusiasts would be stupid to miss this one out.
