### The Premises:

As reported on numerous occasions

### The Lady:

English, well spoken, 20 something, tall, slim, very pretty, dark brunette, small-medium breasts, fully shaved between the legs.

### The Story:

"You look very smart" were her opening words to me.

"Just my everyday work attire," I responded.

"Well you do look very smart."

A good start I thought. There's no doubt in my mind that Charlotte possesses excellent interpersonal skills.

She was marketed on the SPAB as being new. She said that she'd worked before and was on trial at HoD hoping that she'd be offered a permanent stint if she was good enough - there's a waiting list apparently.

"I'll tell the world if you are really good" I replied. I think she sussed that I'd exaggerated a little.

"To start, do you want a massage or do you want to give me a massage" she asked.

"I want to admire your body." I replied leering at her foaming at the mouth as I did so. Navel and anus were off limits but touching everywhere else was ok she explained.

After a few minutes of admiration, sadly not mutually reciprocated porbably due to the foaming mouth, the action started.

Kissing was in the french style but she had difficulty doing it longer than a few seconds each bout

before disengaging gasping for breath. "Hay fever" she explained but it could euphemistically have referred to my technique which consisted of filling her mouth with my tongue. She valiantly persevered stating her preference for a tongue fencing dual until attentions moved elsewhere for the sake of her wellbeing after she'd spluttered a few times.

Have to say that the owo was very very good and I could have spent the entire time just enjoying the sensations but there were other activities on the agenda in the final 10 minutes of the session.

She really came to life and transformed into a wildcat during intercourse talking dirty and encouraging me to pound harder. Sadly intercourse is more of a dessert for me than the main course and after a couple of minutes, conscious that time was running out, I asked to be finished by mouth. She didn't do cim but brought me to a powerful and sustained finale using her mouth and hand.

My verdict is that she's made it through to the second round of the trial scoring close to top points in most areas but needs to improve on one or two others. Especially well recommended for those who like to pound away.
