African woman, mid 20`s, slim, massive tits, nice arse, average looker.

The Story:

After previously declaring my intentions not to bother with this shop ever again, I found myself in the area with little time and right hard on, so I decided to risk it and have a dabble in a classic case of cock ruling head.

Didnt fancy a shag, so negotiated 30 mins massage followed by a hand job for 50 bills (which should have been ?45, but she offered a special massage). So, onto a crap massage for 5 minutes before being asked to turn over and then she started a bit of a Barclays Bank before saying she could do some oral aswell, to which I agreed. The oral that followed was shit, way too much teeth involved and at one point it actually hurt so I asked her to just wank me off (she even tried to leave the jonny on and I asked her to re move it). The handjob wasnt much better than the oral, she treated my pecker like a bottle of Tommy K, it was vigourous and far from sensual. Her tits came out and a finger was allowed but her fanny wasnt the freshest. Managed to shoot my muck and was left to clean up alone, after which I got dressed and left after 15 mins on the premises.

Overall crap time had, and this establishment appears to be the same old rip off. My own fault I suppose, I already knew better but still went ahead with cock ruling brain. Wont be planning to return but you never know!
