The Story:

I was on my way to my hotel in Kent as I have a work appointment in the morning, started to get the horn so started to look for a bit of fun, I found Ellie and sent a text to see if she was working and with in one minute she had replied saying she was and where she was staying. I was only 10 Min's away so I confirmed the booking, the door opened and was greeted by a very pretty young mixed racist girl very friendly and a cute northern accent we got out of the way with all the pleasantries straight in to a bit of owo, I started to finger her pussy and she was getting very wet so wet I had to go down and taste her, which I did with a bit of rimming she then said she wanted my cock inside her so flipped her on her back slid my cock straight in her she was slightly protective of me just ramming it in but after a min she started to loosen up till the point I was going hard and deep.. She stared into eyes at started telling what a naughty girl she is and how she needed a good fucking! Off with the rubber I shot all my load all over her face.. Job done! Now looking forward to this week as going to book a girl for Tuesday its just who do I chose? It's like being in a candy store!
