The Premises:

A plush modernist five star hotel in central London.

The Lady:

A curvy Indian lady with a fair complexion, waist-long tresses and a very pretty face.

The Story:

The sumptuous venue complemented the splendid service I received. I took my own toys and suffered anal play, tit torture, a damn good thrashing with a variety of implements, and best of all: terrific verbal humiliation. This is undoubtedly this lady's fort? and I was happily surprised to find that Kareena?s had a lot of practice. Her role play was well thought out and very fulfilling.

After the session, when she'd dropped out of role, I found her to be charming, refreshingly honest and without pretension. She was amicable, chatty and we experienced a mutually enjoyable encounter.

Highly recommended and I'll definitely go again.
