The Story:

Victoria was the first girl i saw as i entered the parlour. She looks very sexual so i had to go for her before even viewing other girls.

Adequate massage and on turn-over she asked what my thing was. As this was my first time here in years, i mumbled full sex, oral and she aroused me further by insisting she did anything and when she said anal, i thought i might try that for the first time.

She started with owo and although a bit lightweight i still rose to the occasion, i tried to manouvre her into the 69 position and immediately made a beeline for that sweet pussy which was mmmm, i then moved to the ass-hole but was stunned by quite a strong smell. Now i know this may be a turn-on for some, but it wasnt for me at this time and that put paid to my anal adventure. I did not have the heart to say anything to vic as she was so sweet. She slipped on the sheath and moved on top but i immediately lost my root - those darn sheaths - She then returned to owo whereby i rooted solid again and on watching her tongue slurping at my head with a hand job , i moaned to her i was cuming in which she stuck my wand into her breasts as it spurted all over her creamy skin - soooo gooooo. My only real dissapointment was not being able to go for my needed second as i had one of those rare sort of pain bits as the spurt wore off and i knew it would take at least 15 mins to recover. Oh well , i cant wait for my next adventure into working girl fantasy land.
