The Premises:

Sasha was using a borrowed flat having recently decided that the parlour she worked in was not maintaining its standards. It was easy to find, parking in the area is restricted but I parked opposite as it happens. The flat arrangement was OK but not perfect.

The Lady:

Fit and tanned blonde 30-something. Wearing a fluffy dressing gown and slippers. Nothing wrong at all with the underneath the dressing gown bits. Nice shapely boobs and bum, would be really super if she lost only a small amount of weight, and I mean small. One small tat I can remember, navel and tongue pierced. Very friendly and chatty, would put anyone at their ease.

The Story:

I took a shower then joined Sasha, minus her fluffy dg, on the bed for a light icebreaking massage. This moved gradually to light but prolonged kissing, then oral each way, hers being too good, with for once a tongue piercing being really effective. I had to stop her or it would have been all over, so fitted a lurid red condom and enjoyed a decent grind in the basic positions, after which Sasha took no persuading to finish me orally, sucking me to the point where I start to squeak owing to the sensitivity. She disappeared to spit and we then enjoyed a nice chat before gradually getting into a second go, with the same round of positions including plenty of kissing when the position allowed, to a nice end in mish.

We chatted some more before i got dressed, found my wallet after a panic, paid and left. No time pressure at all, could probably have stayed for hours, at least that's how it felt.

I hope Sasha can sort a place out for herself as she would do well as an indie.
