### The Story:

I had the pleasure of spending time with Miss Squires last night. She arrived on time without any delays with flights etc. We arrived at our room in the hotel and not long after the pleasantries and catch up were out of the way, we were soon kissing and cuddling each other. This lead to us unwrapping each other from our clothes. carrying on kissing, and then Annabel headed south and gave me some owo. boy oh boy, she likes this. The use of her tongue was amazing and I was soon stood to attention. Plenty of time passed by, so on with the hat and she jumped on top and sex was had until a climax was reached.

We then went off out for dinner in a Tapas restaurant. We finished our meal and we were soon back at the hotel. More time for further catching up.

The next session followed with different things being tried. I studied my 'a' levels with her this time and the compliment was returned with a little reverse 'a'. This time we decided that CIM was the way forward. So after the condom was removed OWOTC ensued. Annabel took my load in her mouth and lady like disappeared to the bathroom to clean herself up.

Loads of time had disappeared and then suddenly a midnight run to McDonalds then followed to finish off the evenings frolicking. We got back to the hotel about 1am roughly, watched a DVD, then some sleep followed before I drove Annabel back to the airport for the 1st flight back to Manchester.

All in all, quality time spent with a fun girl, who I wouldn't hesitate in seeing again or recommending to anyone else.
