The Lady:

Very petite, slim, firm butt, waist long, natural straight hair. Close, but not the girl from the pictures. There is a trick though, which I explain below.

The Story:

[WARNING] The encounter started on a very bad note, because it is an agency and they have sent a completely different girl. I have a thing for a long, natural hair though and made sure on the call that the pictures on the call were accurate and the girl had long hair, no extensions etc. The first girl arrived and she had a short dyed hair, so I kicked her out and said she was not the girl (unfortunately one has to do this sometimes, otherwise all agency think they call pull that thing). The minute she left the agency called apologising. Again they almost sent someone else, but when I said that I only want a slim japanese girl with natural long hair they have sent the right girl. I have to admit she was very beautiful, nice and charming.
