The Premises:

Second floor apartment in tired modern apartment building. Took me a while to find it which was a bit frustrating but got there eventually. Easy parking and discreet. Small but clean bedroom with loads of toys hidden under the bed. A maid let me in as she shares the apartment with another girl. Good shower across the hall from the room.

The Lady:

She's lost a bit of weight and changed her hair colour since the pictures we're taken on her website. She has a lovely body and personality. Physically, she's not the type I normally go for and wasn't the main reason I was there.

The Story:

I wanted to see Helen because she offers "something different" as Mistress Helen and I'm getting bored of the regular suck and fuck routine with rather passive girls. I wanted to meet someone dominating and she agreed on the phone to a "bossy girlfriend" role.

Well Helen was simply fantastic and is one of my best punting experiences I've ever had. She truly enjoys sex and is a fantastic deep kisser. After various bits of foreplay, she tied both my wrists to the bed and used a cord to tie up my cock and balls up - "better than viagra" she says. She's a woman that instills trust. She then proceeded to drive me nuts taking me to the edge of orgasm many times. Pretty much the best OWO I can remember.

I can't recommend her highly enough. She's brilliant...the kind of woman you wish you had married.
