The Premises:

Semi detached house, clean and pleasant. Just off a main road not far from the centre of town. I think there is another girl works here, but can't be sure. There is a different girl who answers the phone.

The Lady:

About 5'8" very slim. Looks like an athlete, with long straight dark hair below shoulders. Beautiful girl.

The Story:

She is Hungarian I think, and her English is not very good, unlike the lady who answers the phone. I am very suspicious of foreign girls working in this country and usually avoid. In this case I didn't realise until I met her - not having asked. But she is really good, and I am not at all unhappy to have met her. In fact this was the second visit and her pleasant demeanour and all round good performance led me to write a report. She starts of by giving you a hug and then inviting you onto the bed, which is single. She asks what services you are interested in, and I opted for a little oral stimulation followed by sex. Both were very good. She does one or two other things like A which I'm not at all interested in. With sex, she seems to always go on top and once you are inside her she fucks really nicely. In fact within the limitations of this kind of encounter she makes love to you, and I haven't managed to last much more than a minute yet. There are no extra fees and I may try a half hour with her later. For the time being though I'll stick with 15 mins sessions once or twice a week. It's such good value and I think basically she wants to get regular clientele, which suits me fine.
