The Story:

Olimpia is fabulous, this girls is really everything that you could look for in an Escort. We started off with gentle massage and kisses, she was very cheerful and kind to me throughout the entire time, there was no second when i felt that she is distracted or some place else. She performed OWO and it was exactly like the ones you see in porn, great session of passionate sucking and deep throating and her eyes were just so gorgeous. She has big boobs, perfect shape and I think they are real, but i didn't have the courage to ask. We had sex in 4 different positions and she seemed to be really enjoying it, i was too, obviously. Her pussy was amazing and she has great moves too, she knows exactly what she's doing. We had eye contact whenever we can, and her look is just so seductive it makes you go crazy. She was very eager to pleasure me and adjust to my mood to choose the pace, and she was not rushing at all. I never review any girls but after meeting Olivia from Escort Girls London i just felt like I had to share, I absolutely can't wait to see her again and i will in two days! I am so excited. She is perfect.
