The Premises:

Small ground floor flat. Door bell system is a bit confusing (to me anyway) and you're quite exposed to other houses and the busy road outside while you wait to be let in. Once inside the flat is very clean and tidy but is obviously shared with another girl and smelled strongly of cigarettes.

The Lady:

Naomi's photos on The Other Site actually make her facially seem a little bit old around the eyes. However (click? alert) in real life she is extraordinarily pretty with a great body. 5'3", dark hair, brown eyes, big, natural boobs, curvy bum, shaven pussy. Naomi has a little bit of a belly too in all honesty but this isn't a problem for me and like I should be the one to cast the first stone! She is without doubt a smoker but was clean and smelt nice and had made an effort. English is not her first language but communication was not a problem.

The Story:

I was delayed on public transport so was about 15 minutes late but I kept Naomi aware of what was happening and she seemed fine. Upon arrival in the general area I called her and she told me the exact address and upon getting inside I was greeted warmly with a kiss and a hug.

I was offered a drink which I declined but did ask if I could use the bathroom after my long journey. Naomi disappeared for a moment to ask her friend to go and hide somewhere and then I was led through the small flat to a small and dark but seemingly clean toilet. Once I'd finished that bit of business I returned to the room and watch with satisfaction while Naomi stripped off. We kissed and caressed each other and began 45 minutes that made me very happy. After I had finished I was offered a massage but I declined this as it would have seemed like a bit of an anticlimax in truth.

There were some negatives; Naomi actually didn't seem at all keen on me going down on her and twice politely took herself out of my reach despite making way too many faux orgasm noises and pretending to come. Had she not been so keen to full on kiss and go down on me without the slightest of hesitation I might not be mentioning this but it just seemed rather incongruent. Her BJ was great but at times a little too vigorous and even hurt a wee bit at times (please note that I did not complain to her though). The condom was industrial thickness and removed a lot of sensation and the sofa bed was so springy it at times was hard to find a rhythm and I now have an understanding of what it must feel like shagging Zebedee.

The above paragraph are just minor moans. Naomi told me that she is going away for a few weeks and doesn't know what she is doing after that. If we're lucky enough to get her back go see her and be nice to her (but let me know if she likes your oral better than she apparently did mine).
