The Premises:

We meet at a hotel which I was staying at. The place was pleasant enough but nothing special.

The Lady:

Sophie is an extremely attractive brunette. She has a body to die for as her website indicates and has a very pretty face with a magnetic smile and very sexy eyes.

The Story:

This was my first ever overnight punt and i was a little nervous as to if the time would drag on or i would lose attention. But to be honest i could not have selected anyone better to do this with than with Sophie. As well as being stunningly attractive she is very good company, and has a well refined wit. On numerous occasions her humour had me in stitches.

Sophie offers a whole range of services from gfe through to a dom service. I however am fairly straightforward in my tastes so I opted for gfe. And Sophie was very accomplished at this - one minute she is funny, the next affectionate the next very very naughty. Whatever Sophie does she does with enthusiasm and inventiveness.

I am not going to be too explicit in describing what was a wonderful evening but I would say that if anyone were thinking of seeing Sophie they should do so - you will not be disappointed i assure you.
