The Lady:

Helen is a tall slim lady just as I like them with short blonde hair ,mid 40's I think, very friendly lovely boobs and legs

The Story:

I decided to treat myself for xmas, having read Helen's previous field reports thought this would be an experience for me to try and try I did

After an initial phone call I arrange the date and time , Helen text me her address and ask me to ring when on her road.,having been given exact details of where to park , I reversed onto her drive and as I walked to her front door I was greeted with a smile and a kiss I was led into the kitchen hand in hand .

Asked if I would like a drink and after having a long drive accepted a cup of tea we just chatted ,and then was led upstairs and shown into the bedroom ,shortly after I was shown the bathroom with the bath filled with hot water already for me and then the massage room where the action would take place .

I stripped of and got into the bath ,Helen proceeded to wash me or should I say my cock which was fast asleep at this time after a little more gentle washing , it started to wake up , I was then asked to get dried and lay on the massage table face down.

I was being gently massaged with extra attention to my cock and arse watching her in the mirror and trying to touch her was very erotic especially when she climbed on top of me and started to rub her now naked nipples up and down my back .Time to turn over she said and over I turned she grabbed my now hard cock and started to rub my shaft on her clit whilst I tried to gently rub both her nipples and pussy all at the same time ,Helen asked if I was alright, well what can you say when you are in heaven . With more oil on my now rock hard cock Helen said she could feel it throbbing between her hands and ready to explode she started to rub it faster and encouraged me to just let it shoot , well how can you refuse such a request from a sexy lady like this .

Helen cleaned me up and after putting more hot water in the bath I went in for a final gentle wash by those sexy hands

I can only say it was experiance not to be missed
