The Premises:

Well known locally near town centre. Met different receptionist from usual and another new lady at doorstep. Both friendly and took me in with them.

The Lady:

Tall black woman who is a mother from a couple of physical details, Lola has an impressive healthy body and young-looking face. Was wearing a black dress that started low and finished high.

The Story:

I was looked after nicely by a receptionist I had not seen before. Lola came in and I was impressed by her physique. Opted for a cuddle rather than the massage offered and soon she knew what she was going to concentrate on while I reorganised her dress to my preferences and enjoyed the bits of her body thereby revealed.

Lola chatted readily when I initiated it and certainly doesn't start any silly chat lines about irrelevant matters that with some women can be off-putting.

Moved on to oral which was well done with a spell of 69 in the middle.

Then sex in a couple of positions with Lola quite involved in what seemed a genuine way with restrained noises and the action of pulling me into her at various stages of the sex.

With this part as with all the others, there was no sense of Lola wanting to hurry me along and in fact I tended to be the one who signalled to move on so it was all very comfortable and mutually agreed.

I really enjoyed getting to know a new and very pleasant lady who I suspect gives even more of herself in terms of introducing elements herself as she gets to know someone with repeat visits. I expect to be able to check that theory.
