The Story:

Punting Lesson One - DO NOT visit a girl with no face pictures

Punting Lesson Two - Repeat lesson one

The early signs for this punt were not promising. On her profile page, Rakaella (presumably a misspelling of Rafaella) is described as a "Teen Latino" though she is no teen, only doubtfully hispanic and is not obviously male (the last error is forgivable - I suspect that the correct use of Spanish noun endings is not the strong point of your average Kosovan pimp). Her location is given as West Kensington though I was directed to Wembley Park. Well they both begin with "W" I suppose.

Her profile has some rather presentable body pictures so my tumescent friend made the rather dim assumption that she would have a face to match. But sadly it turned out that not only did her face not match but nor did her body or much else. The actual lady in question is a tad heavy in her mid 20's with a distinctly homely countenance. The only accurate element of the description is that she does have a vaguely hispanic look to her, though I suspect Romania rather than Rio.

The flat is shared with two other WGs who would be a shoe-in for Cinderella's ugly sisters.

A waste of time and a long trudge home.
