The Lady:

Tall tanned blonde goes under the name of german milf on the purple site. Her pictures are accurate. Large D breasts but they look and feel like they have had the life sucked out of them. She says she's 35 but I reckon you should add another ten years onto this. Still looks good though for her age.

The Story:

I was looking forward to this but it was rather disappointing. Ive seen another lady here some time ago (Catherine) and she was fantastic, so I thought why not . Sophie (german milf) is striking to look at but as soon as she hit the bed she was pretty lifeless. Kisses were pecks, the oral was strange, she only licked the tip and did a sort of tapping for morse code on the shaft, I knew this was going to be an expensive waste of time. The old boy was barely erect when she leaned over for the condom and smothered it in lube and thats pretty much how he stayed, at one point I actually wondered if I was inside her or not. Anyhow, round one was dispensed with and alas thats all I got for my ?120. I looked at the clock and I had been there 32 mins (and that included taking a shower).

In all she said ' how long you want to stay for, you want a shower (twice once at the beginning and once at the end), danke when I gave her the money, and bye bye when I left).

I don't usually fill out reports but this time I felt I had to, a punt is meant to be fulfilling, and for ?120 there are some delightful ladies out there who provide a top notch service. This just left me feeling disappointed. I wont go so far as to not recommend her to others as it may just have been one of those times when you don't click or my expectation was too high.
