The Lady:

Christine looked stunning, she is late 20's, brunette, about 5'6 tall with beautiful breasts. They are big enough to be fun, but not so big as to get in the way :-)) I am not a fan of skinny girls nor fat girls ... Christine is in perfect proportion with an ass which you would die for I was very satisfied.

The Story:

When I met Christine at her apartment she gave me a stunning smile and I knew I would be in for a good time. She has a sizzling personality that is just awesome. I had already discussed the details of our encounter beforehand, asking her to wear the black pvc outfit with thigh high leather boots on her website.

After the administrative side was dealt with, Christine strapped me to a cross and blindfolded me. Christine then teased me with her hands, body and mouth. Her finger tips running up an erect cock whilst bound and blindfolded is an experience beyond belief ... The blindfold was removed and my hands released as she turned around and invited me to release her fantastic breasts. No sooner had I done this than my hands were bound again and the blindfold put back on. Whilst bound Christine kissed me and teased me with her tongue. A condom was then placed on me and my cock soon disappeared into her mouth ... this was accompanied with a finger teasing and entering my ass ... This seemed to last for ever. Christine then rubbed her body against me before slipping my cock tantalizingly into her by now moist fanny ... This lasted a matter of seconds before she dismounted, turned around and thrust herself on me again....this continued until she released me and removed the blindfold. I then slid down, first burying my head in her breasts and then eating her extremely sweet pussy. Now I was free I then stood Christine on the cross and proceeded to fuck her first from the front and then from behind. Whilst doing this she allowed me to tease and finger her ass, this she definitely seemed to enjoy. Before we got too carried away she pushed me away and told me to lie on the bed with my ass in air. Then first with her fingers, then with a vibrator and finally with a strap on she brought me to an incredible level. I then turned over, placed her on the bed and had a wonderful 2 minutes before finally shooting my load.

I know I have droned on a bit however I have to say this was an excellent experience, the best so I

have had so far in the UK. We actually overrun the clock by 10 minutes however I would never have known from her actions.
