The Story:

Well it had to happen sometime a punt so bad I felt the need tell others about it and avoid at all costs touring Reading and advertising on a well known site.

This girl spanish apparently has the worst attitude of any I have met, should have had walked after she spent several minutes examining the money I gave her not convinced it was real even had one of those pens to check forged notes.

What followed was mix of complaining and don't do this or I don't like that.

Started off with the usual bj covered not great follow by her hand trying to get things going eventually got aroused and she got on top certainly not tight as advertised and the whole atmosphere she created lead to me going soft, another hand job to try and get me back up failed, very much a clock watcher to the second.

I'm usually a very easy going guy and the below average punt is quickly forgotten but with this girls attitude really stunk avoid.
