The Premises:

As a first time visitor to this establishment I was pleasantly surprised after the reviews I read. I arrived early and as it was pouring with rain outside I was allowed to wait in the room by a friendly maid (an English girl - who I wouldn't have minded spending some time with.)

The Lady:

She burst into the room dressed in skimpy red underwear and those lovely red shoes that she is wearing on the publicity photos. A bit of a smoker, but not enough to put me off wanting to kiss her. Pixie has a firm and full body, nice and springy for jumping up and down on in mish.

The Story:

Pixie made me feel like i was a king, even though she declared she was my mistress and pushed onto the bed and sucked my cock. When i asked her to put a dildo up my bum her eyes lit up and she said it was her pleasure. Next she asked me to eat her pussy. Then she sucked my cock a bit more. I finished by pounding away at her with me on top. There was about five minutes left, so she sucked my cock a bit more. I was ready to go again, but unfortunately i only booked 30 mins and she had a four o clock appointment. My only criticism of Pixie is that she is not the greatest kisser. She flicks out her tongue and licks yours, however she did not object when i got her down on the bed and gave her a good snogging. We chatted briefly while i was getting dressed, and she forgot to ask for her fee. I had to remind her. Well, I wouldn't have got away with it cos they had my number and i want to go back. She was amazing and my mind was scrambled for the rest of the day.
