### The Story:

I have been seeing Diana off and on for a few years. Yes, I know the old cliché about wine, but in this case it's absolutely true. Sensual, a wonderful lover, fun character, well read and travelled and occasionally hilarious(at least when talking about some of her experiences!)

I have always said that attitude counts way more than simple 'looks' or 'technique'; Diana has both of those of course but the attention to detail, the consideration for her lover and the 100% commitment to her beau's satisfaction places her in the very top class of courtesans. And, always, those beautiful kissable, sweet lips. Heaven!

Hugely recommended but take as much time as you can to enjoy the whole experience. You will be rewarded as I have been and will continue to be.
