The Lady:

Close match to the pictures on the site (although they've obviously been cleaned up as usual). Also would now put her age as in her 30s rather than the stated 20s on the site. However she is incredibly attractive and is as physically fit and toned as her picture suggest. She does have some tattoos that are absent from the photos - but they simply add to her appeal to my mind.

The Story:

This was my second visit from Lucy Jade with the first being a few weeks previously. She's well presented and didn't appear out of place in the hotel receptions. She is bright, cheery and can keep conversation going in any gaps in the proceedings which you might get on longer bookings.

Services were exceptional and enjoyed in full. I could have quite happily kept the OWO and 69 going for hours especially as it was interspersed with a fair amount of anal play warming things up for later. There was plenty of variation from there - to be honest I think I might need to step up my game a little next time I see her. I suspect she'd be quite happy with a much more vigorous pace.

Both times I came in her arse from behind - something I hope to repeat very good.

Absolute recommendation to anyone.
