The Story:

first I was greeted by Paige she shook my hand and introduced herself to me then I was greeted by another girl however I chose Paige then I was told to go up to the bedroom and wait for her there. She came immediately and asked me what my name was and if the room was ok and I replied yes. Paige explained the prices and what I would get for however much I was paying...she is friendly, after we got undressed she told me lay on my front so she could rub my back with oil and she gave me a massage followed by body-to-body massage whilst this happened she chatted to me and asked me how I was and I replied back i was ok...she told me to turn over so she could tease me by rubbing my chest asked me if i was ticklish and the same time she put my hand on her breast which were wicked! by then i had a hard-on and she put a condom on and started to give me oral then she went on top and started to ride me for a bit, we changed position to doggy-style then finished with me being on top of her and it was over...i would definitely recommend her to anyone who would like a girlfriend experience!
