The Story:

After reading the reviews by astroboy 116179 and bazzlebrush 116185 this Saturday afternoon I checked the schedule on the HOD website and discovered that both Pam and Pixie were working so decided to phone House Of Divine. I booked for 3p.m.

This was my first ever visit to HOD after reading so many excellent reviews.

I drove down from Enfield to NW8, parking is free on the Saturday and I parked a short walk away. I arrived early so decided to visit the nearby Ladbrokes. On the 2:50 at Lingfield I put £5 on the second favourite Trust The Wind at 7/2, the favourite was a silly short price of 1/3. It won and so I thought to myself my luck is in, I hope to ride this maiden filly to a winning conclusion as well!

As this was my first visit when I saw a company brass plaque at the address I was a little bit worried that I had the wrong street or something but I re-read the text sent to me and then decided to ring. A young lady maid opened the door to let me in and explained that the plaque was just for discretion.

Went up the stairs and waited for about ten minutes in one of the rooms with a glass of water. Suddenly the door opens and then a petite blond girl, covering her tits walks in, says "sorry", gets something then walks out. So, now I have met the legendary Pixie! Five minutes later she came in again all flustered and apologetic to get something else. Later I found out from the Community Forum that Raylonder had booked Pixie at about the same time as I had booked Pam – small world!

Eventually I was led up to another room and then waited another five minutes until eventually this beautiful goddess – Pam – walked through the door. At first I thought she did not look like her pictures, I believe her height to be a bit more than 5ft 3in but she may have been wearing heels that I had not noticed. She is beautiful, a natural beauty, without tattoos or piercings but most importantly very friendly and smiley. Any guys out there who lack self-confidence or who are not experienced in punting should try Pam as she will make you feel most welcome. I told her I had cold hands, she laughed and said she had cold hands as well; I put my hands on her arms so she could feel my coldness, she put her hands on my arms so I could feel her coldness as well. The only thing cold about Pam are her hands but everything else is hot and fit-as-fuck about this sexy creature.

I stripped off and got onto the bed with her, she was wearing only a black thong and bra (working girl's uniform!). She let me kiss her, we embraced, she took her bra off to reveal lovely firm but at the same time soft breasts that just by looking at them made me immediately want to suck on her nipples. (why do guys suck a girls nipples, is it something to do with our infancy?) I stroked her, she caressed my chest (I am smooth, not hairy, and she seemed to like that) then with her hand she pushed my chest a bit more to make me lie down. I had worked late the night before and was still a bit tired so I was still soft but she started to work on me with her mouth her tongue circling my knob with great eye-contact and so I began to get harder and harder. I asked her to stand up, we kissing standing up, then turned her around so that my erection was teasing her from behind touching her sex while she still had the thong. She got a condom, removed her knickers and lay down on the bed, legs open, an invitation from heaven, every man's dream.

She tried to put the condom on but it caught into the folds of my foreskin so I put it on myself. It was red in colour with a sweet strawberry flavour to it, the smell covered my fingers while I drove home later. I joked about the colour as my big red cock was so comical, Pam just laughed. I started to penetrate her, she had applied some lube but she was very tight. At one point she gasped a little and I asked her if she was OK. She said it was hurting because I was a bit too big for her. I believe that she is also a bit smaller down there than other girls so you guys out there with big ones be gentle with her. Probably explains why she doesn't do anal. I played with her clit while I was gently having sex with her and I am sure that she was getting more moist than before the lube was applied, she was getting aroused but she did not look comfortable so I told her that we were not going to have any more sex, I pulled out, removed the condom and then asked her to lie back. I moved between her legs and started to lick and suck on her delicate little clit. She was now definitely getting damper and no gasps of pain, just gentle sighs of pleasure as I spent maybe the next fifteen minutes giving her my best reverse oral technique. She seemed to genuinely enjoying this, I think on one occasion she may have come close to orgasm but I am not sure. We switched to 69 where she gave my cock a really good workout and then finally we finished up with her sucking and wanking me at the same time until I came out side of her mouth (she doesn't do CIM).

While I was dressing I asked her a few questions to test her understanding of English and although she is not fluent she does understand and I found out that she also works in Milton Keynes and that she has been in London three weeks and she likes it here.

OK, no prizes for guessing that I recommend her but now that I have seen Pixie I must try her next, then maybe Izabel as I have heard so many good things about both of them and then maybe after those two, back to Pam. ;-)
