The Story:

After years of procrastinating, I finally made the decision to lose my virginity to an escort. Something about Dolly's well developed online persona and writing style really 'clicked' with me, and I instinctively knew that I'd feel safe with her. So, I summoned up all my courage, and made the booking. We spoke for a good while over the phone first - Dolly is very chatty and has a good sense of humour. Don't worry if you're a little on the shy side - she's very good at keeping a conversation going, and there won't be any awkward silences. I was honest about my situation from the outset, and, as expected, Dolly was very understanding and made me feel like everything would be OK.

So, a couple of weeks later, the big day came, and I arrived at her place. Despite all the preparation, I was desperately nervous at first, but Dolly somehow found a way to bring me out of my shell without being pushy or drawing too much attention to my obvious awkwardness. I won't go into too much detail about what happened next, but Dolly already knew the things a 'first timer' has been secretly yearning to experience, and she was really good at explaining everything as we went along. She offered many comforting words of reassurance, and she was unbelievably patient with me (even when I stepped on her toes with my Dr Martens still on - sorry Dolly!).

Afterwards, I was physically and mentally exhausted, but Dolly snuggled up close and spoke softly to me while I recovered. It took all my willpower not to hold her in my arms and drift off to sleep right there and then. I'll definitely be returning soon, but the memory of this first time will stay with me forever. I went home and slept soundly that night, knowing that my inner demons had been silenced for a while by this warm and kind-hearted lady.
