### The Story:

It had been a stressful and frantic week in the office and my initial prebooking and booking at Anabellas not going to plan (or rather as I had dreamed) and having seen (presumably Mia) walking past my parked car in the car park a month previously it felt right to try to cancel Anabellas and make an appointment to see Mia and pop in for my first Ego experience.

I was led upstairs to the room that faces the car park. Reasonable size and clean and it wasn't long before Mia arrived. When I confirmed the service required, Mia disrobed and removed her bra revealing a pair of perky breasts (you can see on Ego's twitter should you care).

Given everything that had gone on, knowing I was capable I asked if was possible for a happy middle as well but told "only the one at the end."

So on my front I laid, chatting away whilst Mia did her stuff. Chatting so much, it made me jump when my hands accidentally touched her knees. I looked up and there was Mia, standing just so close to my face. My face was fixed on her red knickers. I couldn't bring myself to say what I was thinking.

It wasn't long before I rolled over and was staring at her pretty face whilst she started the body massage and then onto the special finish.

This was my first ever massage in the UK. I've had plenty of soapies in Thailand. Yes there's a big difference between the two but I'm glad I had my first massage with Mia. It went well, I enjoyed it and I hope to be able to have another soon rather than later. Next time less related to destressing from work but more for spending time with Mia.
