The Story:

Don't recall the exact date and time I met her.

The first thing I noticed as I walked in was the strong smell of garlic and ginger from the flat and her. It was not pleasant.

I picked her as I was told she is a very good service provider and provides a multitude of services.

She certainly talks the talk but that is it. A lot of talking dirty and pretending but no real action. Brief and light OWO, light kissing with closed mouth (just as well) and holding your hips and pushing back to ensure no deep penetration. A was reluctantly offered but my general lack of interest and her not making access easy it became impossible.

Finished and was ready to leave within 20 minutes of arrival. She carried on talking and keeping up the pretence. I kept on a grin and could not wait to leave.

Now if she was something special then I would understand but she is so typical of the very average looking girls hanging outside beer bars in Bangkok. The type I would not notice or look at.

Cant win them all.
