The Story:

Elisha greeted me with a big smile and a kisses, which was a good start. We moved to the bed and she asked me if I wanted any extras. I said I didn't and after this things did not go so well.

She slipped off her bra and I went to stroke her nipples but Elisha said they were too sensitive. I could hold her breasts but not her nipples - not sure how that could work. So I headed down south and massaged her pussy through her little silky white knickers and then slipped them off. Elisha then tells me she does not do fingers in - disappointing.

Ok time for some tongue action. I ask her to move to the end of the bed and head on in. However as I try to get to work she has my head clamped between her legs.

Clearly this girl just wants me to come and leave ASAP. She has been pulling at my cock at every opportunity. I ask her to go into cowgirl and she jumps on top and pumps me to a climax as quick as she can.

Not a great experience
