The Premises:

Elvira was located at a budget hotel near Kings Cross, 5mins walk. Hotel was discrete but the room was a disabled version that she usually has as it is bigger. A very sparse room which she had drawn the curtains and so was a little dark, which always makes me uneasy. As mentioned the room was a disabled version, therefore the ensuite was a wet room, which doesn't drain very well, which meant that after I had taken my shoes off, when I used the loo and washed my hands both my socks & bottom of my jeans got soaked!!

The Lady:

I think her pictures on AW are misleading, she is pretty but very thin and on this occasion strangely wearing a gown, open to reveal her bra, awful colour and no knickers to display the hairiest pussy I have seen for some considerable time. Prob 5' 6", size 6, 34A/B, very thin, long brown hair I think.

The Story:

I stripped off and just hoped that skill in love making would make up for the looks, of course it never does! She also kept biting my nipples which actually hurt and my neck which worried me it might leave marks! On with condom for probably the worst oral I have had for years, very vigorous too quick and a little uncomfortable. I suggested sex and got on top which was ok apart from a constant strange almost chirping noise she made. Asked for doggy, but she didn't want to do this so got on top, this was very poor, started to lose my erection. Eventually lifted her off and wanked myself off all the time thinking of other wonderful ladies. In to bathroom for shower and check she hadn't left any marks. Dressed & left. Never to be repeated.
