The Premises:

Residential area. Within easy reach of the main shopping centre. Room had stylish (if somewhat dark gothic) decor and bed ensemble, black fabric Chesterfield sofa and dark curtains. Bedside background music. Refreshment mineral water provided prior to session.

The Lady:

Photos are representative. Early 20s. Black lingerie. Long brown hair. Beautiful eyes. Attractive and sexy. 5'3 elevated with stylish designer platforms by Christian Louboutin.

The Story:

My comments are either for very good or very bad sessions as I don't have time to comment on the average.

The session was delayed by a few minutes, so I had a good chance to look around the room. Spotted the useful coat-hanger for my Italian jacket and discovered a horsewhip camouflaged against the dark metal bed head, however, my alter-ego darker side was not triggered on this occasion - so I was not in the mood or tempted to incorporate toys...

She instantly made a good impression with me (that's not easy). I found her to be friendly and good to talk to, nice short convo about this and that and the tribute was sorted out at the outset. I was dressed smartly after my morning shower, so I made myself presentable beforehand and she really appreciated this...

The time went quickly, as enjoyable sessions do. The session developed au naturel, i.e. without directions, into GFE. So there was embracing, with my integrated wandering touchy-feely light massage and caress for the entire time. She has lovely contours and captivating limbral eyes. She remained attired and even wore the Louboutin's on the bed. She clearly loves these.

This got me up effortlessly (which was an achievement because I'm Diabetic and that doesn't exactly help), although she couldn't see because my underwear stayed on.

My generation of '80s pop music emanated from the bedside between kisses (no tongues) and it was like reliving those increasingly distant teenage years. I was concerned my approach may have seemed monotonous or less than an electric experience for her, but this was not the case, and there were some special moments within this context.

A short chat in conclusion followed and she needed to comb her hair because I messed it up. :)

She brought out the gentleman in me and told me I'm a good kisser - left with very good vibes indeed.

Will see her again.

Satis.
