The Premises:

The premises was a domestic setting. It was clean and appropriate.

The Lady:

The lady was heavily overweight, she clearly smoked heavily and was very unfit. After 2 minutes of moderate OTK spanking she was wheezing and exhausted. I would suggest that her website photograph was many years old.

The Story:

I was met at the door by a lady who, sadly, I found a little disappointing.

On entry to her home there was no pre session chat so at no time were perimeters or limits set.

The session just began from cold, mentally and physically, I will admit to feeling very uncomfortable from the start.

I have sessioned many times with many ladies and always found things happy and fulfilling, until now.

I thought my "limits" were reasonably high and I expected to be "pushed" a little.

In the event I found myself in the hands of a real sadist. I was beaten very hard with a borstal strap and when I asked the lady to slow down just a little she ignored me totally. In the end she caused me to struggle so hard that, even strapped down, I moved far enough to make one of her strap lashes to hit me across the small of my back. That stroke was painful beyond description even so, no pleading from me slowed this female's assault.

On and on it went until I was exhausted and to be honest, in agony.

I'm sure that some people want to be dealt with by a real sadist and if this is your thing then Miss Fife is for you.

If however, you do not wish to be beaten to a pulp and to really understand "agony" my advice is to avoid this woman like the plague!
