The Premises:

Uninteresting. Only towels available were handtowels.

The Lady:

Ad says 24. She looks more 44 (or more). She's pale and clearly well past her prime. Tall. Enhanced boobs. Nothing special. Alicia is also know as Alice and advertises under both the escort and massage sections of Backdoor.

The Story:

Abysmal. There were so many warning signs at various stages I have only myself to blame. A fool and his money ...

Started late. When I phoned at her apartment block door, she said she didnt have the keys and asked if I could come back in 15 minutes. After 15 minutes, she said come to new address - at the end of the same street.

I had booked Nuru + DFK + FS the day before and clarified this with her direct on the phone. I had agreed the price for this with her on the phone. On exiting the shower, I discovered she had simply laid a sheet over the bed and was sitting there with her knickers on and a supermarket bag of condoms, baby oil, wipes, etc. She asked what I wanted and so - since nuru was clearly not ever going to be on offer - I said body-to-body massage and full sex. I ended up with a mechanical and amateur massage (no GFE, no kissing, no nuru, hands alone, and no body-to-body action), a lille bit of a blowjob and a frantic handjob (the old fella clearly found her less attractive than even me!). During all this she fielded something like 3 calls - including one setting up her next victim and one texting with one hand while pulling the old fella!

When it became obvious to her that her talents were not getting a reaction she simply stopped and said my hour was up. This was about the 40 minute point.

Avoid like the plague.
