The Premises:

Reasonably smart place, near Camden Town Tube station (some several minutes walk). Clean shower facilities. Parking restrictions will be there most times of the day all week (this being Camden!)

The Lady:

Attractive, similar to her photos with enhanced breasts. Quite a nice face, although she does have a rash which she claims came from a sun bed cream. Blonde, around 5'6 with a very nice figure and one of the nicest bottoms I've seen! She's put a few pounds from her photos, but if anything, it enhances her figure as she looks athletically curvy.

The Story:

You can read my previous review of Adda, which would be similar to this one. That is an attractive, blonde Romanian who was a lousy punt. In fairness, it was not quite as bad as that. She goes by the name of 'Deluxe Lorena', and is very attractive with a very nice figure, but rather like Adda, her attraction was the best part of the punt.

She charges some thirty pounds extra for OWO (which she does not state on her page on the other website). I had not had sex for a while and when she put the fear of dread in me by putting the condom in her mouth and wrapping it over my penis, I just sighed and decided that I would at least try and have sex. I went down on her and though she seemed to enjoy it, she became a little tetchy and wanted to have sex. It was all fairly mechanical; I eventually finished in the doggy position. Then came a rather dull massage; not the worst I've ever had, but certainly nowhere near the best.

In the end, I decided to let the pervert in me take over and offered her a massage so as to get a feel of the body. If you like that sort of thing, then she has a nice body to massage. She seemed to enjoy it, but I was the one who was paying and felt that it was not the best £100 I have ever spent.

She is generally quite tetchy, but that was not the worst part of the experience. Goodness knows where all the good reviews came on the other site. They are either false or some men are easily pleased!
