### The Premises:

easy to find, 2 mins from Marylebone station, I used google earth street view to find out what the building looked like, though summer's directions when I rang to confirm booking were very good

### The Lady:

very attractive, nice figure, pretty face, bubbly personality, the most accurate photos I found (I think they were on her twitter page) were the ones where her hair is in pigtails and she's in a nurse uniform

### The Story:

I got there 10 minutes early she answered the intercom and asked me to give her 5 mins, so I went for a walk around the block, a perfectly safe area.

She answered the door, a basement flat, in the required uniform, we kissed cheeks and cuddled, we sorted out the paper work, I explained that I was very nervous and she put me at my ease. We talked about the bondage scenario (Velcro straps for her safety - I know what I'm like, but she doesn't know me from Adam) and agreed not to bother too much with the 'script'.

She showed me the bathroom, and went to make me a cup of tea, unfortunately I couldn't figure out the shower so had a stand up wash in the bath. Her pet cat is very curious and came into the bathroom as I was drying myself!

Very nice views of her body, as the scenario required, I got the impression that she was very eager to please while maintaining her dignity which is an art in itself! Nothing was too much trouble so long as it was reasonable, and was part of her list of services, I didn't ask for anything that wasn't on the list as I didn't want to spoil the mood.

We talked about nerves when meeting someone new, and when I asked about things from her point of view she surprised me by admitting she is more worried by bondage than physical punishment, which is why I had chosen Velcro straps, to put her at ease, so that she can get free if things turn nasty - I knew they wouldn't, but SHE didn't.

She told me she used to work for a well known agency and went independent as there was too much emphasis on finishing on time, for example a knock on the door at the wrong time can really spoil the moment. She wants you to enjoy yourself while she has a good time as well, She is very attentive and spots what is working and what's not and adapts accordingly.

Treat her properly and she'll treat you well, which leads to more enjoyment for both.
