The Premises:

The Lady:

Darcy is European, about 5'4 or 5'5, total spinner. Gorgeous butt. Small but ample chest. Silky smooth skin. Crazy long dark hair. Smooth, sexy legs.

The Story:

Darcy, Darcy, Darcy. She arrived in the type of outfit I requested. I was pleased that she takes requests. She had her fan and her outfit. Let the role play begin. Darcy was in character the entire time as requested. I like a little mind play with my O. She nailed it. She made me forget my crazy, hectic life with each whimper and purr. Darcy is extremely talented. Her mouth is to die for. She does this quick little lick, nip, light suck, then jams it all the way down for a glorious delightful aaaahhhh moment. She's killer. She's extreme. Innocent yet demanding. Flips off and on like a pro. Kept me guessing til my last glorious moment until I could hold it no more. Right on her face like a pro. She wore my sin well. See you soon Darcy.
