### The Story:

Well now.. it took about 15 calls/texts to get her room number. She was having trouble with reception.

Still we all have bad luck.

Greeted in friendly manner and discussed terms etc. no problems.

Was asked to wash hands ok different but some girls like you to shower so Ok...

I asked her to put the condom out for easy access. She declined ..ok some girls produce it mid action so carried on.

Got the point where it was needed and we stopped while she went and looked for it.

I think she checked a text at this point or at least switched a phone or two off. I kept my focus ..

She was mainly undressed by then and she asked whether she should take off her panties ...

"Do you want these on" .. broke the mood .

She returned with condom I put it on and got down to serious business of... in two different positions.

She was a bit mechanical ..

Afterwards she insisted on taking off condom and checking it had not splt by filing it with water ..!! It was OK ...

She is a real looker but a bit .. "romany "
