The Premises:

The usual place in SW1 described many times.

The Lady:

Slightly taller than average, slim, brunette, olive complexion, small breasts with bars through both nipples, fully shaved.

Reportedly British and yes she would blend in with the local population in the large cities in the UK but there are also people of a similar appearance in the large cities of North Africa, Middle East and Eastern Europe as well as France. Though I'm pretty sure it's her in the blurred photos, this was unexpected but really heightened the appeal for me as I fantasised that her roots were from somewhere exotic. Dialogue between us was very limited so I wasn't able to place the accent to firm up my assumptions.

The Story:

I'd had a truly awful day at work and as always, thought a punt would be the perfect remedy to cheer myself up.

I got to the flat bang on time and 5 minutes later Zara entered the room and broke the ice by asking how my day had been. I finished undressing while speaking and joined her on the bed. Things started promisingly when she'd fk'd willingly but then she asked abruptly what I had in my mouth. I'm in the habit of sucking a strong mint while punting (and half a dozen immediately beforehand) which many ladies have welcomed but she told me to spit it out. This is the first time I've been asked to do that. I chewed it up very quickly and swallowed it.

The session resumed with more fk but she abruptly stopped me when I tried to progress to dfk which is fair enough as this wasn't a service state on her profile. She speeded up the tempo and rushed through owo and cowgirl. I tried to slow her down but soon gave up and asked her bring things to a conclusion by mouth. It was more hand than mouth especially in the final throes but again this is fair enough as her profile doesn't mention that she does cim. She threw a couple of tissues at me to clean myself up and then left the room

I was out of the front door exactly 25 minutes after I entered of which a good 10 minutes was spent dressing, undressing and awaiting her arrival.

Going through her profile afterwards, it doesn't mention that she does gfe which was what I was seeking. It does mention however that she is into hard dom and humiliation giving which, from the brief free preview I'd received, I'm sure she does very well. While this is not for me, I'm sure there are blokes will be more than happy to be subjected to such an experience and I will therefore recommend.
