The Story:

After the preliminary stuff, I mentioned that the description on the HoD website made it sound as if she wanted to be beaten up. She said no, not being beaten up, but she liked to be submissive. This was my own fault for not checking exactly what it meant, but the photos lured me in, and they were accurate. As someone who does not look for submissive women (and she seems naturally equipped to be the opposite), I found it difficult to know what to do. This did not stop me enjoying her oral work, or, after not long at all, at my request, entering her in doggy (she assumed the position and I was happy to go along with it) and then rapidly losing control.

The most unusual experience of my time doing this sort of thing followed. I mentioned that I had not had sex since my last punt two months before. This led to a long (there was an awful lot of time to spare) examination of my life and why I might not be getting what I wanted at home. She asked really smart questions, which made me do a lot of serious thinking, all the time lying naked on a bed with a beautiful woman. I would have liked to have been physically able to do more, and there was nothing to suggest that if I had been able to go again, she would not have been happy to do so. The overall effect was strange. Although the sex was so short, I had had the release I needed, and then a probing of my emotions which made it feel more like sex on a non-commercial basis. I would really like to see her again.
