The Premises:

Modern block of flats in a quiet residential area of Shepherds Bush. Flat was modern and clean, as was the bathroom with very good shower facilities. Went during the day, but should be relatively safe at night. Went by public transport so cannot comment on the parking situation.

The Lady:

Tall (around 5'10), in her early twenties, tanned although she tells me that she has a naturally quite dark complexion compared to most Polish ladies due to her father's ethnicity. Very attractive with a nice smile and a lithe body augmented by curves and pert breasts. Profile pictures accurate, if anything, she looks better in real life.

The Story:

These are my last few months of punting and I was in a depressed state of mind, so picked out some numbers I had taken from that site and Amelia's name came out first. Certainly one of my better decisions recently!

She greeted me in high heels and given how tall she is, she really does tower above you (if you are short like me!).

She gave a nice uncovered BJ, some 69ing, and we had sex with her on top and finished off in the doggy position. A massage followed.

It was a nice hour with a very attractive and pleasant women. Her English is very good and you'll spend as much time talking to her as doing other things!

She said that she was dieting which was a bit of a shock given that she has a very good figure; I just couldn't convince her that many women would love to have her body and pretty face. I know most of you will, but guys, please treat her well. She's one of the reasons men like me are still punters.
