The Premises:

The room was nice, small and simple but clean and well decorated in moody reds and blacks. The large bed was most welcoming and spacious. The mirrors on the wall added to the sexy voyeuristic mood - you felt you could see anything going on from any angle you wanted to!

The Lady:

Tall but not intimidating, (she took her heels off straight away to make sure we could kiss and caress each other pleasantly - I am only 5'3!) very friendly and smiley, incredibly warm. She has the most beautiful smooth coffee coloured skin and long ebony hair, fantastic proportions - curvy hips, slim stomach and gorgeous round heavy breasts that filled my hands perfectly. Just as sexy as her photos. Very sensual and responsive, and an expert kisser.

The Story:

My partner and I were naturally quite nervous, this being an entirely new thing for us. We entered the innocuous looking building found the right room and rang the bell. You'd never guess from the outside the pleasures we were to enjoy on the other side of the door. A friendly maid met us, offered us a drink of water and apologised; Ashley would be a little late due to the trains. This was fine, we had time to settle into the room and take in the scene from a comfy sofa. Our hearts were beating in our chests as seeing an escort is not something either of us had done before. Ashley came in a cute little leotard that showed off her sexy curves and perfect skin, greeted us warmly and welcomingly, naturally putting us at ease.

After talking to her about what we desired, she quickly suggested that her and I undress. I slipped off my clothes as she lost her leotard, revealing smooth curvy breasts which she encouraged me to stroke and cup. Next minute she was running her hands gently up and down me gently, caressing me, kissing my neck and stroking my pussy. I had never been with a woman before, and I was amazed how good her body felt under my hands. We kissed and stroked each other, cupping each other's breasts while my partner watched appreciatively. Ashley asked me if I would like her to go down on me, and told her I would. We moved to the big double bed, where she first gave me a sensual backrub using her hands and breasts on my bare skin, which felt wonderful. She then moved down between my legs, and began kissing me softly. Her pointed, delicate tongue swept

across my clit, sending a scintillating wave of surprise and delight through me. It was the first time a woman has ever kissed me, let alone so intimately.

I turned over, and Ashley smiled seductively and worked her way down my chest and back to my now tingling pussy. Expertly she licked and kissed me, sliding in a delicate finger - she knew exactly where to stroke me to make me groan and sigh. My toes were curling up in delight - and at this point my partner joined us, very aroused by the hot scene before him, on the bed to slip his hard cock into my mouth. We shared a delicious threesome with Ashely's attentive tongue and fingers deep in my pussy. Then we swapped around, she kissed me while my partner took her from behind; then we swapped again and I went down on her as he took me. Ashely groaned appreciatively and seemed very sensitive to my perhaps inexperienced movements. She had such a sweet tasting pussy, I would love to kiss it again. Finally I lay back as my partner made love to me with his mouth and Ashley kissed and sucked my breasts and chest and neck all over. I came with intense satisfaction. She lay with my partner, caressing each other, kissing and stroking his body and cock as he fingered her clit to moans of appreciation, and I kissed each of them in turn.

It was an incredibly hot, wonderfully fun experience, and she was very sensitive and vocal, both before and during. We had a fantastic time.
