The Lady:

Attractive, tall blonde, reportedly and conceivably Polish, 20 something, medium-large breasts, larger framed and stronger built than I was expecting with a sportswoman's physique. In her sandals, she towered over me which isn't something that happens very often.

The Story:

Confuscius loves leggy blondes and Parissa's been on the to see list for many years though not making it to the top as it's been widely documented that she doesn't do dfk. Then one day I thought I'd check out the Tantric principle for the male to learn to receive pleasure without reciprocating which is how I ended up booking to see her. I don't know whether she'd somehow picked up on this but immediately after undressing she positioned herself between my legs and proceeded to give owo while I lay back and enjoyed the view.

After a few minutes I couldn't resist the temptation to explore her body so we swopped places and I ended up doing ro for a short while before reverting back to further experience her formidable range of oral techniques. A few minutes before the final whistle, she gradually hastened the pace with the inevitable conclusion which she took all in her mouth with her lips wrapped round me until I'd finished entirely. She then left the room abruptly presumably to exercise a bit of oral hygiene and on her return she made pleasant conversation until I'd dressed. Much to my surprise she gave me a peck on the lips as she was seeing me out which was more than I'd expected.

Overall it was a pleasant enough experience but it taught me that I need a good gfe to really fire me up and find satisfaction despite what Tantra has to say. This is no reflection on Parissa who delivered within her stipulated boundaries. In fact, I'd enjoyed her company and will recommend for those for whom gfe is not an absolute pre-requisite.
