The Premises:

The Lady:

A very pretty girl, quite tall for an Asian woman. Modest breasts but good legs, good waist and a generous backside. Very feminine all round. In her 20s I'd say. The photos look genuine although unhelpfully discreet. Far Eastern origin but I couldn't tell from where exactly - and she wasn't saying. Definitely not China or HK. Vietnam?

The Story:

An unexpected pleasure - and a real one. I have a thing for Asian girls and she was charming on the phone so we agreed to try dinner and take it from there. In fact she's beautiful, helped by a curvy backside, which I noticed as soon as she walked in to the restaurant. Very well dressed in a tight, but expensive looking outfit and was good, friendly company: interesting, educated, amusing. Kinky, too. A flirt for the whole meal ending with a bit of footsie. I was sorry we couldn't go back to her place as that's what I mostly prefer. But we spent another generous hour in my flat, a bit longer actually, and this time she let her body do the talking. She seemed really into it and the sex was great. Not inhibited or mechanical like some oriental girls I've met. One of the very best. Was really struck by her. I'm in London a lot and will definitely see her again.
